

equipment.data

Enabling access to UK HE research equipment

Need a piece of research equipment or a facility for a collaboration or service?

MUST FOLLOW THE RESEARCH COUNCIL'S EQUIPMENT GUIDELINES

Where do you start looking?

Need to know where UK HE research capabilities are focussed? Need to download or analyse the data?

Visit
equipment.data.ac.uk
The UK HE national equipment and facilities database

Enter your search term, e.g. NMR. Nearest results to you are listed first.

Found your item? Use the contact details and let the conversations begin!

YOUR NMR SPECTROMETER IS JUST WHAT I'M LOOKING FOR!

I'M SURE WE CAN HELP

An equipment database!

Want to contribute data?
Don't have a database?
Visit **data.ac.uk/technology**

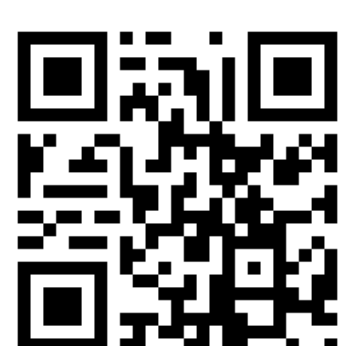

It's very easy! All you need to get started is a description, location and method of contact for each item.

Current supported systems for managing publishing data include Pure, Agresso and Kit Catalogue. You can even publish from an Excel spread sheet! Follow the standard publishing specification developed by the UNIQUP project at **equipment.data.ac.uk/uniqup**

The preferred method is to enable 'auto discovery' by including an Organisational Profile Document.
